PROFESSIONAL SUMMARY

Results-oriented MIS Executive with 10+ months of experience at GoMechanic, managing operational data for 200+ service partners, automating reporting workflows, and building KPI dashboards. Proficient in Python (Pandas, NumPy), Advanced Excel, SQL, and Tableau. Hands-on project experience in machine learning and exploratory data analysis. Pursuing IGNOU MBA in Financial Management. Seeking a Data Analyst or Business Intelligence role to deliver data-driven insights at scale.

WORK EXPERIENCE

MIS Executive | **GoMechanic**, Gurugram, India Aug 2025 – Present

- Automated 5+ recurring MIS reports using Python (Pandas & NumPy) and Advanced Excel, cutting manual reporting effort by 30–40% and freeing ~8 hours/week for the operations team.
- Managed user access and data records for 200+ service partners and internal users, maintaining 99% data accuracy across operational systems.
- Supported workshop mapping and service buddy allocation by analyzing operational datasets, enabling accurate resource planning across partner garages.
- Collaborated with cross-functional teams to identify and resolve data discrepancies, reducing reporting errors and improving data integrity.

Junior Developer – Intern | **CoretechInfo**, Rohini, India May 2025 – Aug 2025

- Developed and deployed responsive web features (HTML, CSS, Laravel) for 3 live client projects including a streaming platform and a college website.
- Contributed to an inventory management CRM module, gaining exposure to data workflows and backend data handling.

PROJECTS

Automobile Price Prediction & Predictive Modeling

Python · Pandas · NumPy · Scikit-learn · Matplotlib

- Analyzed a multi-attribute automobile dataset; performed data cleaning, feature encoding, and EDA to identify key price drivers.
- Built and evaluated a Random Forest Regression model using Scikit-learn, achieving prediction accuracy suitable for market benchmarking.
- Created visualizations (Matplotlib) to communicate model findings and feature importance to non-technical stakeholders.

Netflix Content Distribution & EDA

Python · Pandas · NumPy · Seaborn · Matplotlib · WordCloud · EDA

- Analyzed the Netflix dataset to surface trends in content distribution by genre, country, release year, and ratings—providing actionable streaming insights.
- Engineered features and designed visual heatmaps and category matrices using Seaborn to uncover localized media patterns across 190+ countries.

TECHNICAL SKILLS

Data Analysis & Reporting: Advanced Excel (VLOOKUP, Pivot Tables, Power Query), Google Sheets, KPI Dashboards

Programming & Scripting: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn), SQL (MySQL)

Data Visualization: Tableau, Matplotlib, Seaborn

Databases: MySQL, Relational Database Design

Tools & Platforms: Jupyter Notebook, GitHub, Microsoft Office Suite

Soft Skills: Analytical Thinking, Stakeholder Communication, Cross-functional Collaboration

EDUCATION

MBA – Financial Management IGNOU	In Progress
Bachelor of Commerce (B.Com) University of Delhi, School of Open Learning	2022 – 2025
